START

#### DIRECTIONS:

You will need 1 game board, 2 dice, and a game piece for each player

Place all game pieces on start

Roll both dice. In order to move, you must roll the number that is showing on the next circle. If that number is showing on a die, then move your piece ahead one spot and roll again. If your dice show the next two numbers on the dots, then move two spaces. Your turn ends when you cannot move. The first person to the finish wins!

Ex: Game piece on start, you roll a 1 and 3. You can move to the 1. Next roll, you roll a 5 and 3. You can move to the 3 since both numbers were rolled.
